IT-ENTERPRISES and MACICT

discover how you can benefit with us

MaCICT

This project has been funded with support from the European Commission. This publication [communication] reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

MACICT collabarates with more then 50 companies, and here only some of them:

How the enterprises are involved in the project and universities life?

1. Coordinating Council for Personnel Training at each partner university is established.
2. Partner-companies participate in MACICT-surveys
3. Participation of IT-experts in curricular design and courses content development.
4. Many meetups, conferences, workshops, business games are organized for teaching staff and students by companies.
5. Provision a real-life problems for student group projects and research
6. Companies organise trainings and certification of students and teachers (free of charge)
7. Supporting the educational process at universities.

For example:
At YKSUG three specialists of the EPAM Systems teach courses of Computer Engineering master's degree program and provide real-life problems for student group projects.

Co-founded by the Erasmus+
Programme of the Eurpoean Union

8. Employment of graduates.

For example:
After successfully completing the international Scrum-courses organized within the MACICT project, 7 students got a job offer from EPAM Systems and other IT-companies. One of the EPAM Systems representatives participated in the Scrum-course as a mentor of a distributed student team.

9. Quality assurance on the modernised MSc.
10. Facilitation of dissemination of MaCICT results.

Most of associated partners took part in the InfoDays at MACICT-partners universities in Belarus.

Additional to that
TechWeek at BSUIR is orgnized annually. During this forum, students get acquainted with the main trends in the development of the IT industry, new technologies, and get the opportunity to establish communication with companies for further employment.

Co-founded by the Erasmus+
Programme of the Eurpoean Union

All universities have joint training centers. These laboratories are refurbished and equipped with sponsorship from IT companies. Here IT companies conduct trainings for students and certificate them. The best students are invited for an internships or are employed by the companies directly.

Are you impressed?
There are only some few cases.
More information about workshops, how to get involved, how to attract and integrate new companies you can get by MACICT local representative at your department.
